Application for the post for Graduate Engineer

Dear Sir/Madam,

I am writing to you regarding an opportunity to work in this company.

For your further consideration, I recently completed my Bachelor of Engineering (Hons) Civil (Structure) from MARA University of Technology (UiTM), Shah Alam, Malaysia. I graduated last July 2013. I am interested in this company because of the nature of the job which requires technical competency in handling equipment and the emphasis on problem-solving. As enthusiastic and focused individual, I look forward to discuss my qualifications and transferable skills in more detail. I also look forward to be part of a multinational corporation which offers opportunity to work with people of diverse background from different parts of the world. I believe that my knowledge and skills will help me contribute a great deal to your company.

I have attached my resume for your review and this should give you some idea of my educational qualifications and experience. I would like to work for you and would appreciate the opportunity to involve in this industry.

I look forward to meeting with you to discuss the position further. I can be contacted at +6017-3969412 and the following email address; akmal.azlan@ymail.com

Thank you for your consideration.

Best,

Muhammad Akmal Bin Azlan
