Successful record of accomplishments in project outage management, with regional coverage. Strong technical and business qualifications with an impressive track record of project completion on time, within scope and budget. Proven ability to successfully analyse project management issues critically based on project needs. To develop immediate mitigation plans and out of the box innovative ideas during the project life cycle. Successfully implemented the cost-effective project execution based on LEAN methodology to optimize outage management; enhance competitiveness, increasing revenues, and improving customer service offerings.

Close collaboration with the sales/marketing and technical team to offer a comprehensive service solution to the customer with focus on identifying and observing the market needs and managing complete outage project management service to the customer.

In this role, I was as well responsible for working with my counterparts from the local offices in the Asia Pacific region, i.e. Philippines, Indonesia, Japan, and India.

Pioneered and initiated several activities for process and quality improvements.

Have worked closely with other Multinationals; Worley Parsons & TEPSCO Japan, KEPCO, Korea as well as established and reputed EPC Contractors Alstom, Siemens and GE, Toshiba and Andritz Hydro.

Throughout my career, I had achieved high Key Performance Indicators (KPI>78%) and High Competency Levels (>75%) with companies I had served. High regards praises from colleagues and superiors that I had worked with.
